H5S_SELECT_ADJUST

Adjusts a selection by subtracting an offset

Procedure:

H5S_SELECT_ADJUST (space_id, offset)

Signature:

```
herr_t H5Sselect_adjust (hid_t space_id, const hssize_t *offset )
```

Parameters:

<i>hid_t</i> space_id	IN: ID of dataspace to adjust
<i>const hssize_t</i> *offset	IN: Offset to subtract

Description:

H5S_SELECT_ADJUST shifts a dataspace selection by a specified logical offset within the dataspace extent. This can be useful for VOL developers to implement chunked datasets.

Returns:

Non-negative on success, negative on failure

Example:

None

History:

Release	Change
1.10.7, 1.12.0	Function introduced in this release.
