

Plugins

Programmatically controlling dynamically loaded plugins (H5PL)

- **H5PL_APPEND** — Inserts a plugin path at the end of the list
- **H5PL_GET** — Queries the plugin path at the specified index
- **H5PL_GET_LOADING_STATE** — Queries the state of the loading of dynamic plugins
- **H5PL_INSERT** — Inserts a plugin search path at a specified index
- **H5PL_PREPEND** — Inserts a plugin search path at the beginning of the list
- **H5PL_REMOVE** — Removes the plugin path at a specified index
- **H5PL_REPLACE** — Replaces the path at the specified index
- **H5PL_SET_LOADING_STATE** — Controls the loading of dynamic plugin types
- **H5PL_SIZE** — Retrieves the number of stored plugin paths
